

JUNCTION BOXES

Trafik (plastic casings)

IP44-IK08

Class 2

Citypak Trafik

Junction boxes for traffic or tramway signalling and security cameras or CCTV.

Open and rigid sides to facilitate wiring.

Main outputs via the bottom in standard version or optional via the top with TET for Dynapak, Polypak and Interpak.

Fastening by mounting lug, tool-free adjustment (Dynapak, Citypak, Polypak, Interpak) or M6 screws.

ADVANTAGES

Lotipak, Dynapak, Polypak: cover secured by 2 captive screws.

Citypak, Interpak: large terminal capacity.

Two separate covers secured by captive ¼-turn screws.
